1. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

Applicant has attempted to amend the instant specification with 16 pages of amendments. However, the nature and number of amendments is such that a substitute specification is required and the amendments to the specification (filed 01 October 2001) have not been entered. Additionally, it is noted that a new CRF of the Sequence List was submitted, but it would appear that the disk has been lost or misplaced in the Office. Applicant is requested to submit a copy of the disk which was filed 01 October 2001. Applicant is referred to MPEP §714 (b)(3) and 37 CFR § 1.125 regarding requirements and procedure for filing a substitute specification.

2. Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
